CENTRALIZATION OF WEALTH.

No Power in Sight to Prevent It...The
Subject Liable to Become a Na-
tional Issue.

The latest dividends paid by the Stand-
ard Oil company is evidently creating a
sensation, and well it may, paying its
stockholders \$20,000,000 as a quarterly
dividend. It is said that this large sum
checked against the National City bank
(N. Y.) would, if the cash was required,
test its capacity to pay. But, as a rule,
this large sum was so distributed to hold-
ers' account that it made no perceptible
change in its affairs. This large sum of
profit gained by labor from the bowels of
the earth is distributed among 3,000 stock-
holders of whom less than a dozen own 80
per cent. A share of this stock is quoted
at \$5.30 according to daily quotations of
the stock exchange. The total amount of
money in the world is \$15,000,000,000. At
80,000,000 a year the Standard Oil com-
pany would earn that much money in 187
years, aside from the enormous sum of
interest it would accumulate. The checks
sent out today ranged from the \$20.00
check sent to the holder of a single share
of stock to that for nearly \$5,000,000
handed to John D. Rockefeller. From the
foregoing why should three cents per gal-
lon be added to the cost of kerosene oil, as
it was a few months ago? Does not this
fact prove that there is danger in the power
which these trusts can wield at their
pleasure?

The profits of Carnegie & Co.'s plant ac-
cording to statements filed in the suit be-
tween Frisco vs. Carnegie is reported at
\$21,000,000 for 1899. No doubt much of
this vast sum was contributed by the United
States government for armor plate. It will
be recollected that the last congress ap-
pointed a committee to get bids for eligible
locations with a view to establish manu-
factories for making armor plate rather
than pay an exorbitant price for this
necessary product. Waukegan was one of
the number. It may also be remembered
that a lot of this plate was condemned by
the official inspection and the matter
finally settled by ex-President Cleveland.

In striking contrast to the above gigan-
tic and successful business transactions is
the controversy now pending in congress
relating to the contract between the gov-
ernment and the railroad companies for
carrying the United States mails, in which
the government officials find a deficit of
more than \$6,000,000. It further appears
that if as good bargains were made with
the transportation companies as are those
of Rockefeller with the same officials, that
the balance would be on the other side of
the ledger. A lucid explanation may be
given as follows:

A railroad company can carry one ton of
freight one mile for one-half of one cent.
This is actual cost. It carries passengers
at the greatest expense of any traffic at the
rate of 2.05 cents per mile for 200 pounds.
This calculation is based on commutation
rates. It carries the same amount of ex-
press freight, the next most expensive
freight, same distance for four cents. The
United States mail is carried same distance,
same weight, for eight cents.

Notwithstanding the above favorable
business transactions with the government
it is well known these transportation com-
panies are refusing to pay and do evade
their revenue tax toward the expenses of
government; while they are the first to call
for help in case of insurrection, riot, etc.
While numerous suits at law have been
instigated against them, more especially
on account of the stamp tax on receipts, I
have yet to hear of a decision for or against
them; and yet they exact the price of a
stamp in every instance from their patrons.
By what authority, or process of law, they
escape this righteous tax is past finding out.
We are loth to account for it because T.
C. Platt is a United States senator from
New York, and president of the United
States Express company on the one hand,
and a high post office official, as well as an
important officer of the Pennsylvania rail-
road company on the other. The connec-
tion is too close to hold them entirely in-
nocent, especially when the post office
official and railroad officer is as reticent on
this subject as a clam.

He Fooled the Surgeons.
All doctors told Benick Hamilton, of
West Jefferson, O., after suffering 18
months from rectal fistula, he would die
unless a costly operation was performed;
but he cured himself with Bucklen's Arnica
Salve, the best in the world. Surest cure
on earth. 25c a box at all drug stores.

Christian Church Aid Society.
Mrs. L. M. Hughes will entertain the
Ladies' Aid society of the Christian church
on Thursday afternoon, April 5. At
this meeting the officers for the coming
year are to be elected. It is necessary that
there should be a large attendance.

CAPITAL NEWS LETTER.

(From Our Regular Correspondent.)
WASHINGTON, March 28, 1900.

Senator Foraker frankly stated, when he
naked that his Porto Rico bill, to which
the house bill had been attached, be sent
back to the committee, that it was desired
to have his bill remain in committee until
the senate was given an opportunity to vote
on the house bill alone, which deals with
nothing but the tariff. Mr. Foraker be-
lieves the house bill will be passed.

The senate carried out one of President
McKinley's recommendations when it
passed the bill authorizing the appoint-
ment by the president of a commission to
visit Asia and study and report upon the
best methods for increasing Ameri-
can commerce with China and Japan.

A bill appropriating \$10,000 to pay the
expenses of securing a proper design for a
memorial to Gen. Grant, to be erected in
Washington, was passed by the house
without a dissenting vote.

Senator Gallinger, who is a member of
the committee on Porto Rico, in a speech
advocating the 15 per cent duty on Porto
Rican products other than coffee, which,
by the way, constitutes four-fifths of the
islands exports, said: "We are proposing
to treat Porto Rico better than we treat
any territory of the United States. We
collect internal revenue taxes in Oklahoma,
New Mexico, Indian Territory and Ari-
zona, and every dollar of it goes into the
United States treasury. We shall collect
internal revenue taxes in Porto Rico, too,
but every dollar so collected will be re-
turned to the Porto Ricans and be used for
their benefit." Of the connection of trusts
with the question and their alleged control
of republicanism, Mr. Gallinger said:
"We heard the same when Hawaii was
annexed and free entry to our ports was
given Hawaiian sugar. Now it is raised
again when we propose to place a small
duty upon the products of Porto Rico, for
the benefit of the Porto Ricans themselves.
The trust which is suffering, the trust
which we are oppressing by this legisla-
tion is composed of some gentlemen at the
Arlington hotel in this city, a trust headed
by the British vice-consul at San Juan.
That trust is suffering considerably. Those
gentlemen bought up the sugar under the
full Dingley rates, and if they can get it
into this country free of duty, they will
make the full 100 per cent of the tariff; but
if we succeed in putting a tariff duty of 15
per cent of the Dingley rate on that sugar,
the trust's profits will be cut down by that
much, and the people of Porto Rico will
benefit to that extent."

Chairman Hitt, of the house committee
on foreign affairs, agreed a few days ago
for that committee to make an investiga-
tion of the charges made by Ex-Consul
Macrum, that official mail from Washing-
ton, to the United States consul at Pre-
toria, had been held up and opened by
British military officers, without the adop-
tion of a formal resolution by the house,
and the investigation will be started this
week.

Secretary Root's answer to the senate
resolution asking if he had given any ex-
clusive permit for dredging the gold-
bearing sands of the ocean off the Alaska
coast shows that no exclusive permits have
been issued for such dredging, but that
under authority of law, as interpreted by
Mr. Root and every member of the cabinet,
permits have been issued to several ap-
plicants to dredge the ocean bed, from the
line of low water outwards off the Alaskan
coast, when it may be done without inter-
fering with navigation, and will be issued
to others who may apply for them. Inas-
much as these permits have been issued to
all applicants, there is nothing exclusive
about them. Thus, another man's neck is
disposed of.

The past week marked the retirement
from public service of the ablest and best
equipped man that has ever acted and
served as commissioner of patents, Hon.
Arthur P. Greeley. His resignation em-
phasizes the utter inadequacy of the salar-
ies of the commissioner of patents and his
expert examiners. Mr. Greeley, though
only 38 years old, is a writer on patent law.
He leaves office to practice in Washington,
where he will make a specialty of trade-
marks and foreign patents. The loss to
the public service of such a man is irre-
parable, and the government would better
pay the head of the patent office the salary
of a member of the cabinet than have a
man like Greeley resign.

Senator Spooner has been the recipient
of many congratulations on the able man-
ner in which he got the best of Senator
Tillman in the extended colloquy between
them, which began on the Porto Rico ques-
tion, but took in a number of other things,
including the method adopted to secure
white supremacy in South Carolina, meth-
ods which Mr. Tillman frankly acknowl-
edged and said he was glad were adopted.
Mr. Spooner at no time lost his temper,
although Mr. Tillman did several times,
and endeavored to anger Mr. Spooner by
tantalizing remarks. This is not the first
oratorical victory won by Senator Spooner,
who has long been known as one of the
strongest men in the senate in a running
debate.

After a brief illness William S. Carter died at his home near Rollins station last Wednesday morning at 1 o'clock. He was born in the year 1832 in Sommershire, England. He emigrated to this country about ten years ago and settled in the south central part of this state and afterwards moved to the northern part. He was converted at the age of 19 and joined the Wesleyan Methodist church. After he came to this country he united with the American Methodist church of which he was a member at the time of his death. His desires to worship God and to meet with his people were so strong that he did not scruple at denominationalism but worshipped in the church nearest at hand. It was his greatest delight to attend prayer meeting and bad roads and inclement weather were not obstacles that prevented him from attending. His favorite themes of conversation were the love of God and his blessings to him and his hopes of heaven to which he has now gone to realize.

Free to Inventors.
The experience of C. A. Snow & Co. in obtaining more than 20,000 patents for inventors has enabled them to helpfully answer many questions relating to the protection of intellectual property. This they have done in a pamphlet treating briefly of United States and foreign patents, with cost of same, and how to procure them; trade marks, designs, caveats, infringements, decisions in leading patent cases. This pamphlet will be sent free to anyone writing to C. A. Snow & Co., Washington, D. C.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. Will Close March 22.
The winter term of the Northern Illinois State Normal school, at DeKalb, will close on March 22. The term has been a very prosperous one. The entire enrollment since the opening of the school, has now reached 209 in the Normal department. The principal feature of the closing week was the literary and musical contest between the two literary societies. The exercises consisted of a debate, orations, declamations, essays, instrumental and vocal music. The question for discussion was, Resolved, That the United States should not permanently retain and govern the Philippine Islands. The affirmative was represented by Margaret A. Gallagher, of Whiteside county, and David Madden, of Stephenson county. The negative was represented by Jennie C. Bertram, of Kendall county, and A. Roy Mize, of Madison county. The former were the contestants for the Glidden Society, and the latter for the Ellwood Society. The remaining contestants were as follows, for the Ellwood Society: Orator, Olive A. Spencer, of Cook county; essayist, Blanche M. Capron, of Stephenson county; declaimer, Ivy S. Wright, of Kane county; vocalist, W. R. Lloyd, of Cook county; instrumentalist, Grace Cobbs, of Kane county. The remaining contestants for the Glidden Society were, orator, Frank Bennett, of DeKalb county; essayist, Minnie M. Bush, of Will county; declaimer, Elsie F. Farr, of Livingston county; vocalist, Bertha E. Carpenter, of Kendall county; instrumentalist, Charlotte Paulsen, of Cook county. The Ellwood Society won the debate, the instrumental music and the oration, thus carrying the contest by one point.

A new class will enter with the opening of the spring term, April 2. The present policy of the institution is to receive new pupils each term. Classes will be organized, consequently, for the purpose of taking up the beginning work. By this arrangement pupils can enter about as conveniently at the beginning of the winter or spring term, as in the fall. Those contemplating attending next term should be on hand as early as Saturday, March 31.

Wm. Orr, Newark, O., says, "We never feel safe without One Minute Cough Cure in the house. It saved my little boy's life when he had the pneumonia. We think it is the best medicine made." It cures coughs and all lung diseases. Pleasant to take, harmless and gives immediate results. Wm. T. Hill.

EXPANSION IN NORTHERN WISCONSIN.
The wise poor man who bought a farm on easy payments, and the wise manufacturer who erected a factory in Northern Wisconsin a few years ago, when times were not so prosperous as they are now, are reaping their reward. Northern Wisconsin is feeling expansion in the true sense of the word. Opportunities have not passed by any means. There are still thousands of acres of rich hardwood timber lands awaiting the settler as well as the manufacturer which can be obtained at low figures and on easy terms. Good roads, fine school houses and other improvements are increasing and civilization is progressing. The plenteousness of iron ore, clay, kaolin, marl and timber lands supplies the wants of everybody.

Transportation Facilities.
Are unexcelled. The Wisconsin Central Railway, strictly Badger State road, pierces the rich northern portion of the state, offering excellent transit service to the markets of the world. Those interested can obtain maps, illustrated pamphlets, etc., by applying to

The doctor looked at "nervous indigestion." But he didn't cure it. So Mr. Thos. G. Lever, of Lever, S. C., wrote to Dr. Pierce, of Buffalo, N. Y. And now Mr. Lever is well.

Dr. R. V. Pierce is and for thirty years has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo. During this time he has probably treated more cases of chronic, or lingering, diseases than any other physician in the world.

Invalids from all over the world write to him and receive advice free of charge. During the early years of his practice Dr. Pierce compounded his "Golden Medical Discovery" which he has used ever since in treating all affections of the lungs and bronchial tubes; for purifying the blood; for toning up the nerves and whenever an honest reliable non-alcoholic tonic was needed. In connection with it, he prescribes what other special medicine may be required in exceptional cases and gives directions as to diet and hygiene.

The result is health.

Mr. Lever writes: "I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail. I thought myself incurable as I suffered so much with pain under my ribs and an empty feeling in my stomach. I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. I was irritable and impatient and greatly reduced in flesh. I could scarcely eat anything that would not produce a bad feeling in my stomach. I wrote Dr. Pierce. He prescribed his 'Golden Medical Discovery' and 'Pell's' and gave me some simple hygienic rules. I am well again. I believe the 'Golden Medical Discovery' and 'Pell's' will cure any case of indigestion, torpid liver, or chronic cold."

Insist upon having "Golden Medical Discovery" for nothing else is "just as good."
